☒ 4. The reference JP 64-38352 was cited in a counterpart Japanese application in an Action from the Japanese Patent Office dated January 20, 2009. Applicant notes that in this case, reference JP 64-38352 was not readily available. Despite Applicant's retention of Digipatent in an attempt to locate an English abstract, no such abstract was readily available. Applicant provides the following comments

related to the cited reference:

The Japanese Utility Model Publication Number 1989-38352 was quoted in the Japanese Office Action as being related art. The reference discusses an oscillating inner gearing planetary gear system including a plurality of eccentric shafts passing through external gears for oscillatingly rotating the external gears within an internal gear. The system further includes an eccentric shaft driving gear incorporated into each of the plurality of eccentric shafts for driving the plurality of eccentric shafts.

In the event that there are any fees due with respect to the filing of this paper, please charge Counsel's Deposit Account No. 50-2222.

Respectfully submitted,
